

Home Inventory Checklist

Making sure that your home, and all its contents, are properly covered means you need to do a little preparation. You need to know exactly what you've got, how much you paid for it, and what it's worth. Whether it's your electronic equipment and much loved jewellery, or your new lounge suite and lawnmower, you need to ensure that you've got everything covered.

To simplify the process, we've designed this handy interactive Home Inventory list. Use it as you go through each room in your home and fill in each page (which will automatically tally up your home contents' values). Soon you'll have a comprehensive list of everything you own, as well as when things were purchased and how much they cost.

Another excellent idea is to keep all your receipts and take photographs of your expensive items. You can also use your smartphone to make a video of all your possessions – remember to be very thorough and to verbally describe everything you're recording. Then, when you're finished, simply make a copy of everything and store it somewhere safe (at work or at a relative).
